REMARKS	Extract		
25X1X			
DO NOT CIRCULATE			

1. On 5 June 1952, all installations in Ludwigslust (N 54/9 53) were vacant except for the repair shop of the Techentin airfield where 1 T-34 tank, 1 JS-3 tank and trucks [redacted] were seen.

2. On 5 June, six heavy guns of about 200-mm caliber were seen in an emplacement on the Woebbelin-Neustadt road, north of Ludwigslust. A forester stated that a total of 10 guns of this caliber were in the wooded area. Source believed that the barrels were about 6 meters long.

* [redacted] Comment. In late May 1952, the same source reported the Techentin airfield was occupied to capacity. See [redacted] units of the 94th Gds Artz Rifle Div were probably stationed at the airfield and at the training area north of Ludwigslust. The present information indicates that the emplacement mentioned in the reference report was apparently still occupied on 5 June 1952. It is not possible to identify the artillery unit from the gun caliber.
